Subject: Proposed regulation #2777 Department of Agriculture 2-160

I hope that you'll oppose the proposed regulation #2777; Department of Agriculture 2-160.

While I can understand concerns about food safety--the industrial food system murders around 5,000 Americans due to food poisoning each year--these regulations would harm exactly those people who provide the safest *and most nutritious* food. The wonderful taste is a side benefit. Please keep that in mind.

America was once a country of small entrepreneurs, regulations made it harder and harder to do that and now we all work for others (at far lower wages).
