Subject: Regulation #2777

Message:

My name is Nancy O'Shea, I am a raw milk consumer and I respectfully request that you reject proposed regulation #2777 department of Agriculture 2-160: Milk Sanitation. I am an intelligent, discriminating consumer and do not need protection from my farmer-neighbor or local market or store. Where we need government involvement is where the suppliers or markets are no longer our neighbors but rather corporations created by the State. Larger operations are more complex, problems have much more far-reaching impacts and we have no direct meaningful recourse if there is a problem. The regulation need to focus on those operations instead.
