**Subject:** Regulation 2777--Raw Milk Reg

**Message:**

My name is Patty Erskine, I am a raw milk consumer and I respectfully request that you reject proposed regulation #2777 Department of Agriculture 2-160: Milk Sanitation. This is simply another strong arm bill by the New World Order to keep Americans from eating "healthy food". We people who drink raw milk are not the "dumbed down Americans", and we want the government out of our food supply. If a farmer is not providing a safe, healthy food source then that farmer will not sell his product, and will go out of business. Simple as that. We don't need or want the government "regulating" it.
