**To:** IRRC  
**Subject:** dairy regulations

To whom it May concern;

I am a consumer of raw milk and am committed to its continued availability to me and my family. Pasteurized milk is not healthy and is more dangerous to consume than raw milk with correct/clean livestock environments. PA is is the standard model for the rest of the nation and this would be detrimental to those of us who are trying to consume healthful, vitamin and enzyme packed raw milk and raw milk products.

Therefore, be it known, that I , a raw milk activist, DISAPPROVE of the the "proposed regulation #2777 Department of Agriculture 2-160"
