DISAPPROVE "proposed regulation #2777 Department of Agriculture 2-160."

I am an advocate of raw milk and am well aware of its health benefits and I respectfully request that you reject proposed regulation #2777 Department of Agriculture 2-160: It will make it harder for these small, clean, natural farms to produce more of their nourishing healthy foods. Pennsylvania is so blessed to have these delicious, healthy, nutrient-dense foods produced on these family farms. Let us try to keep it simple for them and trust a process has nourished the fiber of the east coast for hundreds of years. God Bless Pennsylvania and America. God Bless the Amish farmer.

Sincerely,

Paul Capobianco
