To the Pennsylvania Independent Regulatory Review Commission (IRRC)

I am a public health professional and believe the health benefits of raw dairy far outweigh the risks, which can be managed through proper regulations. I grew up in Pennsylvania drinking raw milk and hope to move back there at some point. Pennsylvania is a model raw milk state and what happens there impacts other states, like Maryland, where I live now. I oppose the current proposed the milk regulations #2777 Department of Agriculture 2-160 and request that you vote to DISAPPROVE them.

Sincerely,
