**Subject:** Reject Proposed Regulation #2777 Department of Agriculture 2-160: Milk Sanitation

**Message:**

To Whom it may concern: My name is Raechel Griesser, and I am raw milk consumer. I just recently became aware of the above referenced proposed legislation and to say the least I am very upset. I am sick and tired of government treating Americans like they can't take care of themselves. I DO NOT need protection from the farm that I buy my milk from. It is my responsibility to be a smart and informed consumer when it comes to my food consumption or any other product I wish to purchase. This state does not need this type of regulation. I find that is over reaching and unnecessary. Thank you Raechel Griesser
