Dear Authorities at IRRC.

While I am not in the Pennsylvania jurisdiction, it may be important for you to understand that decisions you make in your state may affect the resolve and activism of other states.

You will be voting Tuesday on regulations which will severely hamper and even destroy the raw milk industry in your state.

In a time of severe economic stress, if you legislate away the livelihood of over 136 families (and more who want to start a dairy) you will join the ranks of those wishing to destroy the economy of their state. Oregon's Measures 66 and 67 are in the same league as your proposed regulations - they are both encouraging assisted suicide for business.

We in Oregon urge you to vote these regulations down. They are harmful for you farmers, harmful for your economy and disastrous to the credibility of your state. Please be the shining light of true progressive legislation and vote these proposed regulations down. Be a role model for success with a thriving industry that is keeping people alive, afloat and extremely healthy.

*kindest regards
Renee Daphne Kimball
