Subject: Proposed Regulation #2777

To the PA Independent Regulatory Review Commission

I urge you to vote to disapprove proposed Regulation #2777 Department of Agriculture 2-160: Milk Sanitation. I am afraid that the proposed requirements in this revision dealing with raw milk will add burdensome costs of doing business to the farmers and may cause them to be unable to continue to supply raw milk. Good raw milk is very important to me and my family and I feel that the existing regulations make my milk quite safe to drink. Please limit any new regulations to setting performance standards rather than specifying particular methods to reach a goal of safe milk.

Respectfully
Sarah Libson
