Subject: Please vote to DISAPPROVE proposed regulation #2777 Department of Agriculture 2-160

I urge you to reject the current proposed regulation 2777 Dept. of Agriculture 2-160: Milk Sanitation.

I grew up drinking raw milk from my Grandfather's farm here in Northampton County and today, 60 years later, we are fortunate to still have a raw milk dairy in our neighborhood. Please do not take this option from us now.

Over regulated and over processed foods have not contributed to the overall health of our citizens. Community Supported Agriculture is a much more intelligent way protect the consumer.

Please support our small, local farmers by making it easier for them to provide the superior healthy food options we have come to rely on.

I am a member of PASA and fully support Brian Snyder's earlier response to these proposed regulations.

Respectfully,

Sheila Gallagher
