Subject: Regulation #2777

INDEPENDENT REGULATORY
REVIEW COMMISSION

To IRRC:

Please DO NOT approve the proposed regulation #2777 (Dept of Agriculture 2-160)!

Pennsylvania is currently a wonderful example showing the country that raw milk is a safe product that thousands of Americans consume and benefit from. Especially in this economy, why on earth would you disapprove of our food freedom and put hundreds of small farmers out of business? Fresh milk has been around and safely consumed for generations of Americans. Why is it in this country we can sell things like cigarettes, trans-fats, tobacco, Vioxx, etc., but it is so difficult to sell a natural, nourishing product that has been consumed since man existed?

Please do not approve this regulations!!

With appreciation,
Susan Fite
