**Sent:** Tuesday, October 05, 2010 9:59 AM  
**To:** IRRC  
**Subject:** Reject proposed regulation #2777 Department of Agriculture 2-160: Milk Sanitation

Stop picking on the small farmers and focus attention on corporate mega-farms and agri-business such as Monsanto, who are causing the real problems to both our health and environment.

If the proposed regulations indeed provide a health benefit, then provide the data that supports this! I have not been able to find any evidence that requiring mechanical bottling machines or more rooms provides higher quality or safer products. Even if it did, let the consumer decide what they want to buy.
