A new message has arrived from the IRRRC Website

**First Name:** Joni

**Last Name:** Rabinowitz

**Company:**

**Email:** [jonijohn2@verizon.net](mailto:jonijohn2@verizon.net)

**Subject:** extension of comment time-chapter 59a Milk sanitation

**Message:**

cc to IRRRC. I sent the following letter to PDA. Dear Mr. Paul Hoge, I see that the comment period for the proposed chapter 59a Milk Sanitation regs published in the Aug 1 PA Bulletin ends the end of August. I'm requesting that you extend the comment time for 90 days, beginning Aug 1. This is because now is the busiest time for farmers -- those most surely affected by these regs-- and many of them do not have internet connection or easy access to email like you and I do. These regs deeply affect their livelihood, and you should do everything you can to seek out their comments. After all,if it wasn't for them,you wouldn't be eating. Sincerely.  
Joni Rabinowitz
