

2777

Dear Mr. Hoge,

I have been a long time consumer of raw milk & raw milk products made by Pennsylvania farmers. As a long time supporter of the Pennsylvania Agricultural Community I urge you & the PDA to make the following changes to the proposed Milk Sanitation Regulation:

- 1) exempt direct transactions from the Producer to Consumer
- 2) specify testing "for pathogens" should be "testing for pathogens that cause illness to humans"

INDEPENDENT REGULATORY
REVIEW COMMISSION

I hope the state of Pennsylvania
will continue to allow its wonderful
raw milk products to be available
to the public.

Regards,
Elizabeth Jank
