Subject: Raw Milk Regulation

Message:

I am greatly opposed to a regulation to have all milk pastorized. Do we not have the freedom of choice? With raw milk I can make quark (european cottage cheese) and kefir (an old russian product, slightly fermented) which is known by its health promoting qualities.--I am nearly 80 years old and in fairly good health. All my life I used raw milk whenever I could for myself and for my four children and I would like to see all those who experienced the goodness of raw milk and believe in its benefits will be able to continue to use it. Thank you F.St.
