RECEIVED

Dear Friends

Greetings and best wishes, another nice fall like morn. has dawned for us, perfect weather for filling silo. We ~~have~~ have been informed by our Co-op that the USDA is proposing to lower the S C C to 750,000. While this may not be a problem to some farmers, it will effect the success of our Co-op, by even more farmers dropping out, thus lowering our daily volume. We would very much appreciate you leaving the S C C at 1,000,000.

Very Truly Yours

Andy H. Byler
