RE: Chapter 95, wastewater-IRRC # 2806.
Chapter 102, Erosion + Sedimentation Controls E2B7
46
(IRRC # 2783. EQB-7-440)

Dear ~~Congressman~~ Chairman Coccodrilli,

I am writing to call for your support on the following ~~the~~ regulations mentioned above. ~~These~~ These regulations serve to ~~protect~~ ^{protect} ~~the~~ water quality to sustain both human and ecological ~~the~~ health. Clean and safe drinking water is a right held by all Americans, which is threatened by the poor ^{water} standards ~~held~~ ^{held} ~~by the~~ ^{by the} natural gas industry. Across the country, ^{and in our own state,} we have ~~seen~~ seen incidents ~~which reflect~~ in which water sources have been contaminated beyond levels safe for human or animal consumption.

I urge you to protect ~~the~~ our ~~our~~ water supplies for this generation and the next by increasing the regulations on wastewater produced by

Natural gas drilling.

Best wishes,

AIYSSA TOMBLER
