ENVIRONMENTAL QUALITY BOARD

Environmental Quality Board,

I am writing to express my support of the Clean Water Action agenda. In particular:

- Forested Buffers are good for the environment and the economy because they reduce pollution and flooding and increase property values.
- We need minimum 100 foot buffers on all streams in Pennsylvania

I am an avid fisherman and some of my best memories with my children are days that we have spent fishing in the wonderful streams all over Pennsylvania. Please help insure that my children can have the same experience with their children.

Sincerely,

Bryan H. Cohen
