ENVIRONMENTAL QUALITY BOARD

Dear Environmental Quality Board:

Forested Buffers are good for the environment and the economy because they reduce pollution and flooding and increase property values.

We need minimum 100 foot forested buffers on all streams in PA!

Streams, clean water and forest are the lungs and veins of our environment. If we do not take action now, later it will be too late. We cannot replace what we have lost.

Please consider this petition.

Truly Yours,

Milton
