To: Environmental Quality Board

RECEIVED

DEC - 9 REC'D

INDEPENDENT REGULATORY  
REVIEW COMMISSION

Forested buffers are good for the environment and the economy because they reduce pollution and flooding and increase property values.

We need minimum 100 foot forested buffers on all streams in PA that do not already have development around them.

Without these buffers, the animals will have no where to live and we will be endangering them. Plus, these buffers add to the beauty of an area.

ENVIRONMENTAL QUALITY BOARD Sincerely,

Angie Greaney
