Dear EQB,

NOV 20th

My name is Brittany & I'm
15 years old in the 10th grade.
We've recently been learning
about clean / dirty water & alot
about it. I may not drink water
alot, but many people do &
I think they'd enjoy clean
water. So I'm saying we need
a minimum of 100ft forested
buffers on all streams in PA.
Most people are very particular
about their water, & it would be
nice for them to be 100% sure
that it's clean. Some dirty
water can even cause people
diseases. That's sad & disgusting...
Too many people have been dying
due to dirty water. I don't
want to start drinking & cleaning
myself in dirty water. So please,
I want to require a minimum 100
foot forested buffer on all PA
streams. Think of animals too!

Please & Thank you.
