INDEPENDENT REGULATORY  
REVIEW COMMISSION

Please help us keep PA's water clean  
for us and our future generations by  
using

- Forested buffers which are good for  
the environment & economy by reducing pollution  
and flooding.

- Please keep 100 foot forested buffers  
on all streams IN PA

Streams and clean water are  
important so we can protect  
the wild life, the places for recreation  
and have pollution free drinking  
water for us and our children's children

Christine Toni
