DEC - 9 REC'D

INDEPENDENT REGULATORY  
REVIEW COMMISSION

To Whom it may concern:

A canvasser from the Clean Water Action Organization  
Came to my house asking for support. Although I did  
not donate to their cause I did agree to write a letter  
in support of - Forested Buffers that are a minimum of 100  
feet from streams. They tell me that by keeping new development  
back 100 feet from the edge of our streams will reduce pollution of  
our streams, decrease flooding and flood damage, limit erosion of  
stream banks, increase property values, and cut drinking water  
treatment costs. I'm no expert but it sounds good to me.

Regards -

  
James Roebuck
