ENVIRONMENTAL QUALITY BOARD

Protecting our streams and
waterways is extremely important
to all of us.

We need to make it
mandatory for a minimum 100ft
forested buffers on all
streams in PA.

When I was growing up
there was alot of streams
and creeks that we could
swim and play in. Now they
are all gone and I can
only tell (not show) my
grandchildren about them.
Don't let them take any
more streams away from
us.

Thank You

Mary Hood
