ENVIRONMENTAL QUALITY BOARD

DEC - 9 REC'D

INDEPENDENT REGULATORY  
REVIEW COMMISSION

Protecting our streams and  
waterways is extremely important  
to all of us.

We need to make it  
mandatory for a minimum 100ft  
forested buffers on all  
streams in PA.

When I was growing up  
there was alot of streams  
and creeks that we could  
swim and play in. Now they  
are all gone and I can  
only tell (not show) my  
grandchildren about them.  
Don't let them take any  
more streams away from  
us.

Thank You

Mary Hood
