INDEPENDENT REGULATORY
REVIEW COMMISSION

To whom it may concern @ the EQB,
I am at the top of Reiff's Mill Rd.
Even MY yard floods. I can only imagine
how bad it is at the bottom of
Mt. Pleasant and the surrounding areas.
Forested Buffers would be a great solution
to our drainage problems. In addition to
reducing flooding, they reduce ~~pollution~~ and
increase property value.

I grew up fishing the local streams and
waterways. Every time these areas flood,
the local streams get loaded with gravel,
cement, and garbage. That is hardly good
for the local fish. If something can be
done, please do it soon.
