INDEPENDENT REGULATORY  
REVIEW COMMISSION

To the Environmental Quality Board,

There should be a required minimum 100 foot forested buffers on all Pennsylvania streams for the following reasons:

- Forested Buffers are good for the environment and the economy because they reduce pollution & flooding & increase property values
- We NEED minimum 100 foot forested buffers on all Streams in PA.
- Forested buffers will help reduce pollution of our Streams & water sources not only for us but for wildlife as well.

Thank You for Listening,
