Subject: Misuse of power...Act 119

As a former deputy state treasurer of pennsylvania, i am horrified and disgusted!!!!!!...what is wrong with your thought process??

Are you not aware of what governor rendell, the secretary of agriculture, russell redding, rendell's chief of staff, steve crawford, special secretary jessie smith and director of dog law sue west are trying to do re: Act 119, the new dog law???? they are attempting to circumvent the law which has already passed!!!! what has happened to the ethics of my state???

If this is what you and your office are about, not adhering to passed laws, you deserve not to be in office. This is an election year and i and others i know are in contact with many many people. It is time to get your act together and enforce what is humane, godly and correct and stop the condemning of thousands of animals to untold suffering. this is not part of what we were put on this earth to do. How would you like some other form of helpless creature/person like a child or an elderly person to be abused???

This is unacceptable and you have to do something to stop them....NOW!!!! we will be watching the outcome!
