Subject: Dog/Kennel Laws

Please support our canine friends in demanding that solid wood floors be in place for all animals in cages. They cannot stand on the wire cages. This will disfigure their feet making them unable to walk properly. Please help pass laws that will enable kennels to have runs too so they can get exercise each and every day. How would you like to be walking on that wire constantly. If you have any

compassion at all, please let us get these laws back. Please don't go back on what Gov. Rendell signed in 2008. Please I beg of you, as an animal owner and mother of a veterinarian, please help these animals. P L E A S E ! ! ! ! ! ! Please don't make our animals suffer. I have 3 animals of my own and they have the best that I can give them...let's give the ones in commercial kennels the same benefits.
