**Subject:** Please don't make any changes to Act 119

I am so disappointed that you are thinking about making changes to Act 119. I am a dog lover and was so pleased when the Act was passed.

Please don't allow breeders to use any wire floors. I have seen many instances where dogs can not walk after being kept on this type of flooring. It also causes extreme injuries. I don't see any reason that the mothers and puppies can't be kept together on solid flooring rather than allowing wire flooring.

Please don't change the ruling on allowing pregnant mothers outdoor access. I think it's especially important that they have outdoor access at this time rather than being confined. I think it's extremely important for these animals to have access to an outside run!

Please do what is right and protect these dogs!

Thank you!
