After believing in the good of people and trying to trust in Governor Rendell, I find that the lobbyists who, for monetary gain, are willing to do anything to continue the despair and agony of the dogs in my state's puppy mills. I am in utter shame of my state. I am trying to understand how anyone could sleep at night knowing they contribute to this kind of misery.

Please pass this as intended so that the enslaved dogs who have nothing to live for, will live their meaningless lives with a little less physical and emotional torment.

How do some people sleep at night???
