I am deeply concerned about the significant chatter about the failure to enforce animal protection laws. It is all over the internet on the failure to follow through on the campaign promises. A society is judged on how it treats its animals. It speaks to our humanity. No lame excuse about half baked efforts, budgets' or the economy. This governor also has a bigger responsibility as a national figure who is often speaking to the public on many important issues bigger than PA. Fix this ASAP and do it conspicuously. My thanks in advance.

Sincerely,

William Tulloh
