Commercial Kennel Canine Health Chapter 28a. Regulations

Hello,

I am a licensed dog breeder in Pa and I am asking you to vote no to the proposed regulations on kennels.

1. Surveillance 24 Hours Per Day, 365 days per year goes beyond reasonable expectation.
2. Installation of 2 heating and cooling systems goes beyond reasonable expectation.
3. Reporting of a malfunction to the state dept. goes beyond a reasonable expectation.
4. Flooring not to allow a dogs toe nail to pass thru goes beyond a reasonable expectation.

Lighting, ventilation, flooring, heat indexes and penalties, all go to the extreme making it nearly impossible, if not impossible to comply.

Please consider the extremity of this proposal and vote your common sense. VOTE NO

Respectfully submitted,

Ammon Martin
