Dear James Smith

I am writing about ~~the~~ ~~new~~ ~~regulations~~ ~~on~~ ~~dog~~ ~~health~~ ~~regulation~~
Canine Health Regulation

We at Walnut Grove kennel are opposed to these New Regulations as the current regulations are working very good in our kennel operations

And also think some of the new regulations would even be hazardous to our Dogs Health like having the Dogs in the air flow as having pup in an air flow is like asking for sick Puppies which is my experience in

"Striving to Bee excellent for you"

5 years of ~~breeding~~ ~~Dogs~~

and also don't see any health benefits in having a HVAC System providing a kennel has good vents and is cleaned properly

Walnut Grove Kennel is a family operated kennel which we hope to keep on professionally breeding & caring for our Dogs but could possibly be closed due to these complicated New Regulations and the cost of all the equipment needed to comply

Walnut Grove Kennel
Hoping to stay in business professionally
Breeding and caring for our Dogs?
