

Dear I R R C

2785

I'm a Dog breeder in Pa with 20 adult dogs
I just completed my Kennel in June
The State Dog Wardens were here & everything
passed with the New Regulations

We spend \$65,000 on new Kennel + radiant
floor heat & fans

Now the new regulations say radiant floor
heat would not be good enough

We started our radiant floor heat in April

Very comfortable we take shoes off to work in
the Kennel, it's warmer than our house

This Summer we ran our fans in the Kennel for the dogs
and even with the fans running some dogs would
rather lay outside in the sun

Please, Please We need to listen
to the Dogs Not the people

Thank you for the hard work
you are doing
Sincerely
John
