Regulations email

Dear Acting Secretary Redding,,

The new regulations are ridiculous...who is going to carry them out and check on these poor dogs in puppy mills? Somebody is lining their pockets to keep these "so called kennels" operating. Close them all down...nobody wants a sick puppy from one of these places. And shame on the pet shop owners knowing damn well where these puppies come from. The Amish and Mennonites where I live in Lancaster County, Pennsylvania would sell their own mother for a dollar. Now they're spreading the decomposed little bodies of dead puppies on their fields as fertilizer. COME ON NOW....SHUT THEM DOWN...FORGET THE REGULATIONS.
