Regulations email

Dear Acting Secretary Redding,,

Pennsylvania has made a lot of progress in getting rid of puppy mills but it is imperative that we keep the momentum going. Additional action should be taken to ensure that all commercial kennels provide a healthy minimum and maximum temperature, that fresh air is provided and that solid floors be required to prevent the painful injuries caused by wire cage bottoms.

When it comes to this subject, there are no Democrats or Republicans, just people who care about animals and people who don't. I hope my elected officials will prove they fall into the first category.
