Dear Acting Secretary Redding,,

NON-MEDICAL REGULATORY  
STAFF OFFICE

I strongly support stricter dog abuse laws in Pennsylvania. As your constituent, I urge you to vote to pass House Bill 39 as soon as possible to outlaw the practice of non-medical personnel performing invasive surgical procedures on dogs.

Puppy mill abuse in our own backyard has thrust Pennsylvania into an international spotlight, and our state has become emblematic of the cruelty, neglect and mistreatment so commonly occurring in commercial kennels. We have the world's attention; now is the time to act. Please vote yes to protecting and improving the lives of dogs in our state, and help make Pennsylvania an emblem for change.

Thank you for your attention to this important matter.
