INDEPENDENT REGULATORY  
REVIEW COMMISSION

Esteemed member of IRRC:

I have read through the Canine Health Board's proposed changes for regulation covering basic ventilation, lighting and flooring conditions for commercial kennels, and fully support these improvements as important steps in creating more humane living conditions for the companion animals used in these businesses. I understand the state will not incur any additional enforcement costs and consumers will be more likely to receive healthier animals. This is a "win-win" for everyone involved, both human and canine, and will reflect well on the state of Pennsylvania and our legislators.

Thank you for all your fine work.

Shauna Binswanger  
Treasurer  
Pennsylvania SPCA Board
