INDEPENDENT REGULATORY
COMMISSION

I have read the regulations created and proposed by the Canine Health Board and I strongly support these changes. Pa MUST end its association with puppy mills...and being the capital of that nightmare business has to stop. Getting regulations that experts have 'vetted' out makes sense...and only those kinds of regulations make sense. That in 2009 dogs in our state get proper light, heat, flooring, social exposure, interaction, should be a no brainer. These puppy mill dogs must have protection that matters in areas that matter. So lets get ahead of the right things now instead of being so out in front of the wrong things. Humane care, not profitable care, is the standard. Carol Erickson
