Canine Health Board:

I have read through the proposed changes in regulation covering ventilation, lighting and flooring for commercial kennels, and fully support these as an important step in creating more humane living conditions for the companion animals used in these businesses. I understand the state will not incur any additional enforcement costs and consumers will receive healthier animals. This is a "win-win" for everyone involved, both human and canine, and will reflect well on the state of Pennsylvania.

Thank you for all your fine work.
