Subject: Support for the CHB recommendations!

Dear Canine Health Board Members;

As an advocate for all animals, I strongly support the recent regulatons pertaining to lighting, temperature control, ventilation, control of humidity and ammonia levels and exercise. These regulations controlling environmental factors will significantly impact the health and welfare of the breeder dogs kept in Penna's large scale commercial breeding facilities in a positive way and serve to finalize the Act 119 and the work of the General Assembly.

These dogs have waited far to long to receive humane care. Expedite the passage of these regulations as soon as possible!

Sincerely,

Constance L McMullin
2001 Harrisburg Pike, B507
Lancaster, Penna 17601 2641

In the spirit of Act 119 and the power it grants to the Canine Health Board, I wish to voice my support of the CHB's recommended regulations pertaining to lighting, temperature control, ventilation, control of humidity and ammonia levels and exercise. The regulation of each of these environmental factors will significantly impact the health and welfare of the breeder dogs kept in Pennsylvania's large scale commercial breeding facilities in a positive way and serves to finalize the Act and the work of the General Assembly.

Please do not further delay the relief the dogs have waited so long to receive, and expedite the passage of these regulations as soon as possible.

Sincerely,

Your Name
