"I am writing to endorse the regulations created and proposed by the Canine Health Board. I strongly support these changes for the following reasons:

1. Pennsylvania 's reputation has been tarnished by being branded a "puppy mill" capital which allows dogs to be raised in inhumane conditions.
2. These regulations are based in scientific research and on advice provided by scientific experts.
3. These regulations will ensure that any dog who is commercially bred will be given adequate light, heat, ventilation, air quality, flooring, and social exposure and interaction - all essential factors that were OMITTED from the recently enacted dog law. For the first time, commercially bred puppies and dogs will have a guarantee of an environment that will promote - not hinder - behavioral and physical health.
4. It is time that Pennsylvania was a leader in humane care of animals, rather than always appearing in the news for the numerous abuses that occur here. This regulation will ensure humane care. "

**Subject:** CHB Regulations pending

I am writing to wholeheartedly endorse the regulations created and proposed by the Canine Health Board. I strongly support these essential changes for the following reasons:

1. Pennsylvania's reputation has been tarnished by being branded a "puppy mill" capital which allows dogs to be raised in inhumane conditions that result in unnecessary death, illness and arrested development of innocent animals who deserve basic humane care.
2. These regulations are based in scientific research and on advice provided by scientific experts.
3. These regulations will ensure that any dog who is commercially bred will be given adequate light, heat, ventilation, air quality, flooring, and social exposure and interaction - all essential factors that were OMITTED from the recently enacted dog law. For the first time, commercially bred puppies and dogs will have a guarantee of an environment that will promote - not hinder - behavioral and physical health.
4. It is time that Pennsylvania was a leader in humane care of animals, rather than always appearing in the news for the numerous abuses that occur here. This regulation will ensure humane care. "

I would gladly forgo my income from behavior cases I get that are the result of the poor breeding and care practices of puppy mill operators. I hope that the adoption of these more stringent guidelines for operating puppy mills will have that effect. Much heartbreak will be avoided with a healthier population of puppies to choose from.

Sincerely,

Viviane Arzoumanian

To whom it may concern,

I am writing to endorse the regulations created and proposed by the Canine Health Board. I strongly support these changes for the following reasons:

1. Pennsylvania's reputation has been tarnished by being branded a "puppy mill" capital which allows dogs to be raised in inhumane conditions.
2. These regulations are based in scientific research and on advice provided by scientific experts.
3. These regulations will ensure that any dog who is commercially bred will be given adequate light, heat, ventilation, air quality, flooring, and social exposure and interaction - all essential factors that were OMITTED from the recently enacted dog law. For the first time, commercially bred puppies and dogs will have a guarantee of an environment that will promote - not hinder - behavioral and physical health.
4. It is time that Pennsylvania was a leader in humane care of animals, rather than always appearing in the news for the numerous abuses that occur here. This regulation will ensure humane care.

Thank you for taking the mental and physical health of dogs into consideration. Poor health contributes to behavior problems that can contribute to dog bites. This affects the health of your constituents.

Thank you,  
Ginny Price, MS, CVT

**Subject:** Title 7, 7 PA Code CH.28a Canine Health Board Standards

To Whom it May Concern:

I endorse the regulations created and proposed by the Canine Health Board. I strongly support these changes for the following reasons:

1. Pennsylvania's reputation has been badly compromised by being branded a "puppy mill" capital which allows dogs to be raised in inhumane conditions.
2. These regulations are based in scientific research and on advice provided by scientific experts.
3. These regulations will ensure that any dog who is commercially bred will be given adequate light, heat, ventilation, air quality, flooring, and social exposure and interaction - all essential factors that were OMITTED from the recently enacted dog law. For the first time, commercially bred puppies and dogs will have a guarantee of an environment that will promote - not hinder - behavioral and physical health.
4. It is time that Pennsylvania become a leader in humane care of animals, rather than always appearing in the news for the numerous abuses that occur here.

This regulation will ensure humane care and go far towards rescuing the image of Pennsylvania.

I am writing to endorse the regulations created and proposed by the Canine Health Board--7 PA. CODE CH. 28a. As a Biology professor and a person who trains dogs in agility, obedience, and tracking as a hobby, I strongly support these changes for the following reasons:

1. These regulations are based in scientific research and on advice provided by scientific experts.
2. Pennsylvania's reputation has been tarnished by being branded a "puppy mill" capital which allows dogs to be raised in inhumane conditions.
