**Subject:** Act 119

To: Pennsylvania Canine Health Board

I am writing to voice my support of Act 119 and the power it grants to the Canine Health Board. The CHB's recommended regulations pertaining to lighting, temperature control, ventilation, control of humidity and ammonia levels and exercise. The regulation of each of these environmental factors will be a positive factor in the lives of these helpless animals.

Why does it take this long for you people to do the right thing for these poor creatures who deserve to be protected from the unscrupulous breeders that see them as nothing but a money crop? If you have the power to help, then do it.

I am asking you to expediate the passage of these regulations for once and for all. Do the right thing.

Sincerely,

BettyJoe Parmer
