**Subject:** CHB Act 119 Breeding Environmental Regulations

**TO: Pennsylvania Canine Health Board**

***I support the Act 119 CHB's recommended regulations pertaining to lighting, temperature control, ventilation, control of humidity and ammonia levels and exercise for all dogs in breeding facilities affected by this law. The regulations for each of these environmental factors will significantly improve the health and welfare of the breeder dogs kept in Pennsylvania's large scale commercial breeding facilities and serve to finalize the Act and the work of the General Assembly.***

***Please pass these regulations for the dogs that have waited so long to receive, and expedite the passage of these regulations as soon as possible for those of us who have worked so long to see this success in the humane treatment of animals used for profit.***

***Sincerely,  
C. E. Hazzard
