**Subject:** Board Recommendations

I recently visited a friend who adopted two dogs that were "Breeder" females from, the now closed, Almost Heaven Kennel. One of them is untouchable and it is very sad to watch her. She is ravaged and desolate and just goes around in circles. Dogs are companion animals who are dependant on us to give them basic needs and humane care. I support the recommendations for environmental controls such as heating, lighting, ventilation and space. They need exercise and human contact. I sincerely hope these recommendations/regulations will be enacted soon. Thank you! Elaine M. Brim
