LEGISLATIVE REGULATION  
ADMINISTRATION

**Pennsylvania Canine Health Board**

I would like to voice my enthusiastic support of Act 119 and the power it grants to the Canine Health Board to protect the helpless canines of our wonderful state. The CHB's recommended regulations pertaining to lighting, temperature control, ventilation, control of humidity and ammonia levels and exercise will allow you to be a voice for those who cannot speak. The regulation of each of these environmental factors will significantly impact the health and welfare of the breeder dogs kept in Pennsylvania's large scale commercial breeding facilities in a positive way and will serve to finalize the Act and the work of the General Assembly.

Please expedite the passage of these regulations as soon as possible so that these dogs no longer continue to suffer at the hands of uncaring humans.

Sincerely,

Laurie Lyon
