Subject: Act119/CHB's regulations pertaining to lighting, temperature, control, ventilation, control of humidity and ammonia levels and exercise of dogs....

TO: Pennsylvania Canine Health Board

In the spirit of Act 119 and the power it grants to the Canine Health Board, I wish to voice my support of the CHB's recommended regulations pertaining to lighting, temperature control, ventilation, control of humidity and ammonia levels and exercise. The regulation of each of these environmental factors will significantly impact the health and welfare of the breeder dogs kept in Pennsylvania's large scale commercial breeding facilities in a positive way and serves to finalize the Act and the work of the General Assembly.

Please do not further delay the relief the dogs have waited so long to receive, and expedite the passage of these regulations as soon as possible.

We are members of United Against Puppy Mills, Humane League of Lancaster County, Humane League of the United States, ASPCA, and National Wildlife Association. Please expedite the passage of the above regulations ASAP for the health of welfare of the breeder dogs kept in PA's large scale commercial breeding facilities. Thank you so very much for your support and true caring of these dogs! We also rescued a long haired mini dachshund from a puppy mill - she is still very timid, however, we are working with a trainer and she, Crystal is doing fine. Please help and be the voice of these puppies and dogs. Thank you from the bottom of our hearts!

Sincerely,

Ron and Roberta Hamilton
Mt. Joy, PA
