Dear Comittee Members: I am writing to ask that you support the Canine Health Board's proposed regulations for commercial kennels. There will be no cost to the state for enforcement of the regulations and any additional costs incurred by the kennels can be made up by having healthier dogs available for sale. These regulations will help promote more humane care for those animals who are victims of a very cruel industry. Thank you for your time and consideration. Sincerely: Elizabeth A. Hamilton 610-626-5336.
