Subject: United Against Puppy Mills

TO: Pennsylvania Canine Health Board

In the spirit of Act 119 and the power it grants to the Canine Health Board, we wish to voice our support of the CHB's recommended regulations pertaining to lighting, temperature control, ventilation, control of humidity and ammonia levels and exercise. The regulation of each of these environmental factors will significantly impact the health and welfare of the breeder dogs kept in Pennsylvania's large scale commercial breeding facilities in a positive way and serves to finalize the Act and the work of the General Assembly.

Please do not further delay the relief the dogs have waited so long to receive, and EXPEDITE the passage of these regulations and enforce them as soon as possible.

It is time to force the puppy mills out of business and let the genuine breeders have control of the industry. These poor animals have suffered for far too long, it's time the Pennsylvania General Assembly opened their eyes and earn the money they are paid.

Sincerely
John & Lyn Stoltz
